

Press Release

Ref: 2nd progress workshop within the project "Elaboration of the mitigation and adaptation plan to climate change in the municipality of Tulcea"

September 2023

Tulcea Municipality, together with its partner, the National Institute for Research and Development for Environmental Protection Bucharest (INCDPM), organized on Tuesday, September 26, 2023, the second project progress workshop: "Elaboration of the mitigation and adaptation plan to climate change in the municipality Tulcea".

The Ministry of the Environment, Water and Forests is the Program Operator for the Program "Environment, adaptation to climate change and ecosystems" (RO-Environment), Small Grants Scheme "Elaboration of mitigation plans and adaptation to climate change in municipalities" and is financed by the Mechanism Financial of the EEA European Economic Area 2014-2021.

The total value of the project is 584,832 lei, and the implementation period is 12 months (November 24, 2022 - November 24, 2023).

During the event, a summary of the project was made, it was discussed about the contribution of each institution to the realization of the inventory of greenhouse gas emissions, the results of the questionnaires regarding the current and forecasted climate regarding climate change, the stage of the development of the mitigation and adaptation plan to climate change in the municipality of Tulcea and examples of good practices in the field.

In an interactive way, the representatives of the local public administration, environmental institutions, research and administration institutes of the Danube Delta, and relevant NGOs, contributed to the achievement of the objectives of the 2nd progress workshop of the mitigation and adaptation plan climatic conditions in the municipality of Tulcea.
